Foreword

This publication is one of a monthly series containing data on medical assistance payments made under Title XIX of the Social Security Act (Medicaid). Information is compiled and reported by each State and/or jurisdictional agency administering an approved Title XIX program on Federal Report Form SRS-NCSS-120: Monthly Statistical Report on Medical Care. Currently there are 54 such programs; 49 States, the District of Columbia, Guam, Puerto Rico and the Virgin Islands. Arizona has not initiated a Title XIX program and Massachusetts has a separate State agency for blind recipients.

Prior to January 1974, similar data were collected for the midmonth of each quarter and midmonth quarterly reports have been published in this series since May 1967.

Reports for the months of March, June and September will include quarterly summary data and in addition, reports for December will include annual summary data.

Information presented include medical payments by form of payment, payments to medical vendors by type of services, number of recipients in whose behalf medical vendor payments were made and data related to screening services under the Early and Periodic Screening, Diagnosis and Treatment Program.

This report was prepared by Henrietta Duvall and Annie J. Mayfield of the Medical and Rehabilitation Statistics Staff of the National Center for Social Statistics.

Introduction

Medicaid (Title XIX of the Social Security Act) is an assistance program designed to provide medical assistance to specified groups of needy individuals. Such persons are classified into two main groups according to their maintenance assistance status, (1) those who are authorized to receive money payments for their basic necessities under public assistance programs such as Supplemental Security Income and Aid to Families With Dependent Children, and (2) those who are not receiving maintenance assistance payments even though they may, in fact, be eligible. There are extensions of the maintenance assistance status categories but uniform procedures do not exist for reporting such data. There are four basic eligibility requirements for medical assistance: (1) age 65 and over; (2) blindness; (3) permanent and total disability; and (4) membership in families with dependent children. In addition, some States have exercised the option of including other needy persons who do not fall into any of the above categories. Such recipients are classified as 'Other title XIX' recipients in the accompanying tables. Also, 'essential persons' (usually spouses) may also be eligible for medical care. For money payment recipients, these persons are usually classified according to the same eligibility factors as the recipient spouse.

Generally, payments are made out of Medicaid funds to vendors (providers) of medical services, directly or through a fiscal agent as the direct result of claims filed by the provider after services are rendered. Data presented in this publication are generated as an adjunct to the Medicaid claims processing and payment operation. Thus, information is based on bills paid and not services rendered during the month. Consequently, the data provided through this process are not professed to represent a true picture of the incidence of illness among Medicaid eligibles and are subject to fluctuations unrelated to the provision of medical care. Monthly data are collected and presented to meet pressing current demands for minimum information on medical care financed under title XIX. However, states are required to provide more significant and detailed annual data on the numbers of persons receiving medical services, the number of units of such services and the corresponding amounts of payments.

Except for payments, data related to screening services are not necessarily generated through the claims payment process. Numbers of individuals screened are usually based on services actually rendered during the report month. As a result, payments reported for screening services may be unrelated to persons receiving such services.

Medical Assistance (Medicaid) Financed Under Title XIX of the Social Security Act - January 1974

A total of 862 1/ million dollars were paid out of Title XIX funds in January 1974. An estimated 7.5 2/ million persons had medical vendor payments totalling 840 1/ million dollars made in their behalf. An additional $1.8 million in vendor payments were made for screening services under the Early and Periodic Screening, Diagnosis and Treatment Program (EPSDT). There were concurrently 237,081 persons enrolled in Health Maintenance Organizations whose premiums were paid out of Title XIX funds.

Persons Served

More than half (53 percent) of the recipients for whom vendor payments were made were members of families with dependent children. AFDC children under 21 and other Title XIX recipients under 21 represented about 35 percent of recipients. Twenty-five percent of the recipients were eligible on the basis of age 65 and over. Seventy-five percent of the medicaid recipients were also recipients of maintenance assistance in the form of money payments. Among members of AFDC families, ninety percent of the recipients were also receiving money payments.

Amounts of Payments by Groups of Persons Served

Thirty-seven percent of payments to medical vendors were for persons whose eligibility was based on age 65 and over. Thirty-one percent were on behalf of members of AFDC families. The proportion of payments (23.2 percent) on behalf on permanently and totally disabled recipients was greater than the proportion of medical payments for either adults or children in AFDC families. Among AFDC recipients, eighty-four percent of payments for medical care were made on behalf of persons also receiving money payments, however, for the aged 65 and over, over seventy percent of medical vendor payments were on behalf of persons who were not receiving maintenance assistance. Medical vendor payments for non-money payment aged recipients accounted for more than one-fourth of the total vendor payments. It should be noted that a large amount of these payments are probably made to medical institutional facilities which provide the basic necessities (food, shelter, etc.) and thus the recipients are not authorized for money payments for such needs.

Payments by Type of Services

Seventy-two percent of payments were made for inpatient services, i.e., hospitals (32.2%), skilled nursing facilities (23.3%), and intermediate care facilities (16.1%). Among other services, physicians' services and prescribed drugs represented 10 and 6.8 percent of total payments, respectively.

Screening Services

Forty-two States reported 127,008 children screened under the Early and Periodic Screening, Diagnosis and Treatment Program. Sixty percent of the children screened were six years of age and older. Fifty-five percent of children screened had referrable conditions uncovered and seventy-eight percent of those with conditions uncovered were referred for diagnosis and/or treatment.

1/ Includes Ohio payments of $21,141,087 total and $20,730,091 in vendor payments.

2/ Includes estimates for Colorado, Massachusetts and Ohio which were extrapolated from previous reports.

List of State and Regional Tabulations

Table 1. Amount of medical payments under title XIX of the Social Security Act by form of payment

Table 2. Recipients with medical vendor payments by basis of eligibility

Table 3. Amounts of medical vendor payments by basis of eligibility of recipient

Table 4. Recipients and amounts of medical vendor payments by maintenance assistance status of recipient

Table 5. Amounts of medical vendor payments by type of service

Table 6. Recipients aged 65 or over and amounts of medical vendor payments by maintenance assistance status of recipient

Table 7. Blind recipients and amounts of medical vendor payments by maintenance assistance status of recipient

Table 8. Permanently and totally disabled recipients and amounts of medical vendor payments by maintenance assistance status of recipient

Table 9. Members of families with dependent children under 21 and amounts of medical vendor payments by maintenance assistance status of recipient

Table 10. Distribution of recipients with medical vendor payments by basis of eligibility of recipients for selected states (Note: State selection based on differentiation between numbers of adults and children in AFDC families)

Table 11. Distribution of amounts of medical vendor payments by basis of eligibility of recipient for selected states (See note on Table 10)

Table 12. Distribution of dependent children under age 21 and adults in families with such children who had medical vendor payments made in their behalf by maintenance assistance status for selected states (See note on Table 10)

Table 13. Distribution of amounts of medical vendor payments for dependent children under 21 and adults in families with dependent children by maintenance assistance status of recipients for selected states (See note on Table 10)

Table 14. Other title XIX recipients and amounts of medical vendor payments by age of recipient for selected states (Note: State selection based on differentiation of other title XIX recipients by age)

Table 15. Number of individuals screened, referral status and amounts of payments for screening services

Table 16. Number of individuals under age 6 screened, referral status and amounts of payments for screening services

Table 17. Number of individuals age 6-20 screened, referral status and amounts of payments for screening services

Table 18. Number of individuals screened and number with specified conditions uncovered or suspected during screening

Table 19. Number of individuals screened under age 6 and number with specified conditions uncovered or suspected during screening

Table 20. Number of individuals screened aged 6-20 and number with specified conditions uncovered or suspected during screening

See annotations following table 20 for limitations of the data.

Annotations

1. The following definitions apply to the symbols appearing in the detailed tables:

   --- indicates no data reported.
   *** indicates that the percent was not computed because the base was too small.
   Z indicates that the percent was less than 0.05.

2. Arizona has no title XIX program and is excluded from the tabulations.

3. Ohio did not submit a report for January 1974 and is excluded from the tabulations.

4. Colorado did not report recipients and payments by maintenance assistance status and basis of eligibility of recipient and is excluded from all applicable tables.

5. Wisconsin did not report recipients and payments differentiated by maintenance assistance status of the recipient and is excluded from the subtotals in applicable tables.

6. In addition to Ohio, Colorado and Massachusetts; Nevada, New Mexico, Pennsylvania and Utah are excluded from tables 10-13 because children and adults in AFDC families were not reported separately. Connecticut, Illinois, Kansas, Maryland, Minnesota, Mississippi, Texas and West Virginia were able to report AFDC recipients separately but were unable to differentiate medical vendor payments between adults and children in AFDC families. These States are excluded from the total percentage computation in Table 11.

7. Two States, Pennsylvania and Wisconsin did not differentiate Other Title XIX recipients by age and are excluded from Table 14.

8. In California, there were 68,696 persons in AFDC families for whom it was unknown whether they were children or adults. These recipients and the $520,954 in medical vendor payments were distributed in the same proportions as the known amounts.

9. Vendor payment totals for Oklahoma include $194,885 in retroactive adjustments.

10. Data were partially estimated for Michigan, New York, New Hampshire and Vermont.

Annotations specific for Table 5 (Type of Service)

11. Data were not available on medical vendor payments for family planning for Alaska, California, Georgia and Rhode Island.

12. Family planning is included in other care for Virginia.

13. For Connecticut, other care includes other practitioners' services, clinic services, laboratory and radiological services, home health services, and family planning services.

14. For Kansas, medical vendor payments for clinic, laboratory and radiological, and family planning services were not available and are presumably included in other types of services.

15. For New York, other care includes laboratory and radiological services.

16. For South Carolina, vendor payments for skilled nursing facility services include $16,992 paid to State Mental Institution.

Annotations specific for Screening tables 15-20

17. States omitted from tables did not report on screening services for January 1974.

18. For California, the total screened includes 609 individuals for whom no other information is available.

19. For Colorado, EPSDT screening data excludes payments for 494 recipients receiving dental screening at a cost of $43,091.

20. Totals include expenditures of $1,000,199 for persons screened but not distributed by age: Idaho, $36,769; Indiana, $33,214; Michigan, $807,176; Mississippi, $58,580; and New York, $64,460 (Table 15).

21. In Indiana, a substantial number of persons screened during the month with referrable conditions uncovered during screening are not enumerated by problem (s) uncovered because they were currently receiving treatment for the condition.

22. For Kansas, screening data includes 679 individuals and an expenditure of $1,959 who are in on-going care. There was no breakdown by age for these persons.

23. Expenditure data only were reported by Wisconsin with no age distribution.

24. Payments for screening services were not reported by Maryland, South Dakota, Texas, Puerto Rico, and the Virgin Islands.
